

RIDE - ON VACUUM - SWEEPER FKS 110 PRO

Crucial facts:

- Extremely small turning circle
- Swivelling side brooms: avoid obstacles automatically
- Clear view of the side brooms and all sides of the chassis
- No tools necessary for changing rollers and filters

Technical data

FKS 110 PRO

Sweeping width (with 2 side brushes)	1100 mm
Sweeping width main roller	700 mm
Sweeping principle	TRS - Tandem roller system
Operation time	approx. 4 h
Capacity of dirt collector	90 l
Filter surface	4 m ²
Filter cleaning	electrical
Gradability	20 %
Forward speed max.	6 km/h
Theoretical sweeping performance	6600 m ² /h
Practical sweeping performance	4620 m ² /h
Recommended net cleaning area	up to approx. 12000 m ²
Total length	1450 mm
Total width	900 mm
Total height	1165 mm
Total weight (without battery)	209 kg
Power supply	Battery
Working time (depending on floor, driver, dirt)	up to 3 h
Battery, maintenance free / gel	4 x 6 V a 180 Ah

(HEFTER reserves the right to make technical changes).

Version 01.2013

The **FKS 110 PRO** is the productive ride-on vacuum-sweeper with the unique Tandem-Roller-System (TRS). The system combines agility and exceptionally high sweeping performance. The FKS 110 provides comfort and performance.

Convincing advantages:

- Load-bearing parts of powder-coated, solid steel construction
- Covering made of extremely impact resistant polyethylene (rotation formed)
- Highest possible ease of operation
- Very easy access to technical components
- Low maintenance drives due to avoidance of belts
- 2 side brooms
- No front rubber deflector: no hindrance of reception of large sweepings
- Vacuum-cleaning with 900 m³/h air volume in 4 m² dust filter
- Very large, robust and yet light dust collector
